

Safe Child Policy

In response to COVID-19, for the safety of staff and the library community, patrons must be 15 years old or in ninth grade to use the library unless accompanied by a responsible adult.

The library is dedicated to providing a welcoming environment that encourages children to visit the library, use Library collections and services, and attend library programs. Library staff are available to assist and support children with their use of Library resources. However, the library is not responsible for children who are left unattended on Library premises. Unattended children are children of any age who are apparently unaccompanied by a parent, guardian, and/or responsible caregiver in the library.

Parents, guardians and/or caregivers are solely responsible for the safety and behavior of their children. They are advised that children, like all Library users, are expected to comply with the library's "Rules of Conduct" and a child who violates those rules may be asked to leave Library premises.

Parents, guardians and/or caregivers are expected to be aware of scheduled Library closing times and understand that a Library facility sometimes may have to close unexpectedly due to emergencies or safety issues. It is the responsibility of parents, guardians and/or caregivers to let their children know what they should do if they must leave the library.

Library staff may call the police or other appropriate agency if a child is left unattended when a Library facility closes or if a child otherwise appears to be at risk.
